## Role-playing Ideas

- Have one member “role play” the position of Apparatus Operator in order to provide a solution.
- You can also divide members into groups in order to develop solutions.
- Solutions should be submitted via email to [tdg@lafdtraining.org](mailto:tdg@lafdtraining.org)
- Solutions from the field can be viewed online at [www.LAFDtraining.org](http://www.LAFDtraining.org).

You are the Apparatus Operator assigned to Task Force 60. Light Force 60 has been moved up to Fire Station 35. It is mid-July on a Sunday. It is approximately 1400 hours. Task Force 27 is onscene at a structure fire in Fire Station 41's district. Engine 82, Rescue 82, Battalion 5, Light Force 60, EMS 5, Heavy Rescue 56, USAR 88 and 2 helicopters are dispatched to a stranded hiker at 5835 Green Oak Drive in the Hollywood Hills. This is also known as Bronson Rock Quarry. Battalion 5 arrives onscene first, they report that there is a stranded hiker

approximately 75 feet down a mountainside. Engine 82 is directed to the lower part of the mountain to set up operations. Battalion 5 requests Light Force 60 to respond to the incident address at the top of the mountain.

You approach the incident along a very narrow, winding, mountainous road. You spot Truck 60 directly in front of the incident address. In order to gain access to the top of the mountain, you must go through the side gate of a residence. The backyard consists of a flat lot that looks into a large rock quarry below. You see Battalion 5 at the rear of the property

looking down the mountain. You arrive at the rear property line and can now look down at the stranded hiker. He is about 75 feet from the top and the same distance from the bottom. If needed, you could walk slowly down this mountain. Patient is a 29 y/o male with moderate leg injuries. He is stuck and cannot get out on his own.

### Apparatus Operator Guidelines

- Describe 2 different land based tactical operations to rescue patient.
- Describe operations to secure and capture patient.
- Discuss Light Force 60 individual member responsibilities.
